3 Price Choices

As non-profit ministries of the Nebraska Annual Conference our three sites need to cover the cost of running high quality, spiritually enriching programs. The true cost of a week-long camp can reach to \$400 or more depending on the program and site. Nebraska United Methodist Camps and the leadership of our three sites understand the financial stress some of our families are facing and are committed to making our program available to all families. **No Child Will Be Turned Away!** Listed with each camp you will find three different price choices. Price C is the closest to the actual cost of each camp. Price A and B are subsidized pricing. This subsidy comes directly from the camp site you choose to attend. Please pick the choice that best fits your family.

- Price A** is the highest subsidy given by each site.
- Price B** is for those families that can afford to pay a little more than Price A.
- Price C** is closest to the actual cost of operation.

Please Note: If you are receiving support from your local church, any organization in the local church, other outside organization, or a Conference scholarship, please select Price C. Please read each camp sites page for more information about the site. If you have any questions please call the site you are choosing to attend.
